EC *version with welded wire mesh and belts*

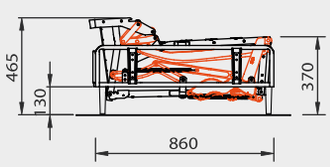

NEW VELOX *P13*

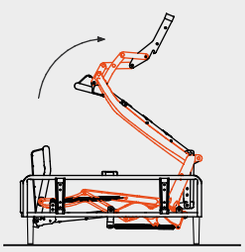

COM 25

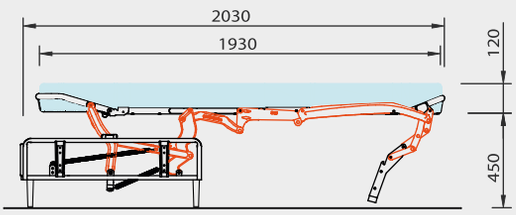

This version with 13 cm feet can support a 12 cm high polyurethane mattress, 193 cm in length. It is very simple to open in a single synchronised movement, bringing both the backrest and cushions under the bed base without needing to remove them. The frame can be supplied with bayonet couplings for a completely demountable sofa that 's easy to transport. The backrest can also be supplied with a practical pillow holder. The absence of edges around the mattress support ensures maximum safety during use.

Questa versione con piede da 13 cm può contenere un materasso in poliuretano da 12 cm di altezza, per una lunghezza di 193 cm. L'apertura è molto semplice e si esplica in un solo movimento sincronizzato, portando lo schienale e i cuscini entrambi sotto il piano del letto senza doverli rimuovere. Il telaio può essere fornito con attacchi a baionetta che permettono di realizzare un divano completamente smontabile e facilmente trasportabile. La spalliera può essere realizzata anche con un comodo vano porta guanciali. L'assenza di spigoli sul perimetro di appoggio del materasso garantisce un'efficace sicurezza nell'utilizzo.
