EASY BED *STANDARD*

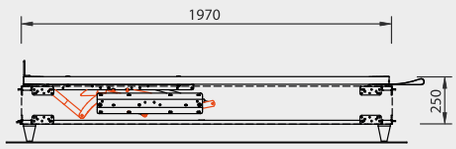

EASY BED *STANDARD*

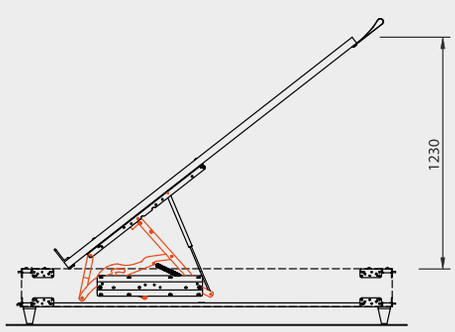

COM 32

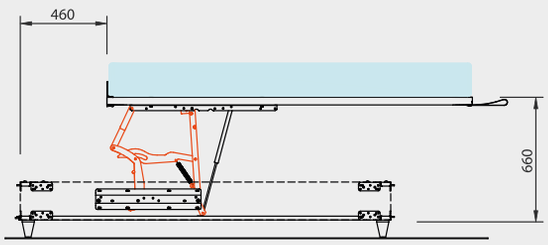

Demountable model allowing the creation of a storage bed. The mechanism allows the bed to be lifted in two useful positions to easily access the storage box underneath, and to easily make the bed. The bed is conveniently closed in the horizontal position, avoiding the need to re-make the bed.

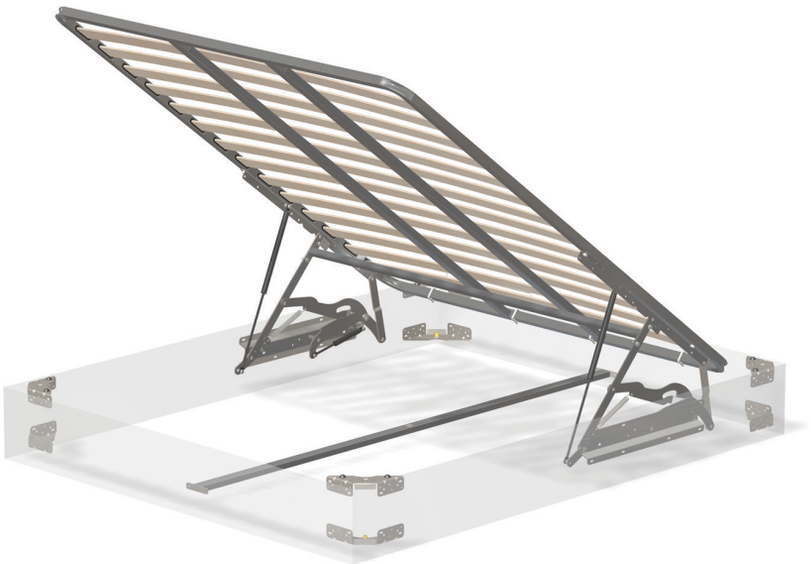

Modello smontabile che permette la creazione di un letto contenitore. Il meccanismo consente di sollevare il letto in due posizioni utili per accedere facilmente al vano contenitore sottostante e per rifare il letto comodamente. Inoltre la semplice chiusura avviene con il letto in posizione orizzontale per evitare successive sistemazioni del letto.
